Compute Class Movement Salaries: Step 1 of 3

DISCLAIMER: This is a tool to compute salaries for class movement. The authority for determining salary movement between classes is the California Code of Regulations.

Prior to computing class movement, transfer requirements as defined by SPB Rules 430-433 must be met. In addition, alternate range criteria relating to salary movement must be applied.

Enter the employee's current salary: 4759

Enter the "From" class code and the "To" class code
From class code: 5142   **To class code:** 4800

[Get the Salaries]   [Clear the Form]

[NOTE: SPB's home page contains a transfer calculator to determine which classes are transferable based on the maximum salary rate of the last list appointment.]

Compute Class Movement Salaries: Step 3 of 3

DISCLAIMER: This is a tool to compute salaries for class movement. The authority for determining salary movement between classes is the California Code of Regulations.

Prior to computing class movement, transfer requirements as defined by SPB Rules 430-433 must be met. In addition, alternate range criteria relating to salary movement must be applied.

Current Salary:	$4,759

From Class:	5142 - ASSOCIATE PERSONNEL ANALYST
	$3,915 - $4,759

To Class:	4800 - STAFF SERVICES MANAGER I
	$4,520 - $5,453

Determine Transferability

$4,759   x 1.05 = $4,997 x 1.05 = $5,247 $\bar{\$1}$ = $5,246

From Maximum

From Maximum:	$4,759
To Maximum:	$5,453
Difference	$ 694
Difference / Lower Maximum	0.1458
Range Differential	14.6%
Applicable Regulation*	
The new salary is NOT valid. It should be equal to or greater than new class MINIMUM salary of $4520 .	

*This link will take you to Article 5 of the DPA Rules. You will have to scroll down to the applicable regulation.
